## **Options Analysis**

Engineering Services, Planning Services, and Corporate Services have reviewed the plans and Pre-Servicing Agreement and have found that all conditions which would allow the Pre-Servicing Agreement to proceed have been met. It is recommended that City Council enter into a Pre-Servicing Agreement in a form satisfactory to the City Solicitor and the City Engineer for the installation of services for the Angela Court Subdivision (13 lots) and the existing registered Plan of Subdivision (18 lots).

As noted throughout the public process related to the draft approval of this Plan of Subdivision there were a number of concerns related to Species at Risk and environmental impacts. The Owners have completed the Environmental Impact Study, their consultants have reviewed the Engineering drawings to ensure the proposed work aligns with their recommendations and they are engaged to monitor the construction when it occurs on site.

### Option 1:

Deny the request to enter into the Pre-Servicing Agreement for the installation of services.

### Option 2:

That the City enter into a Pre-Servicing Agreement with New Era Homes Limited and Millford Development Limited in a form satisfactory to the City Solicitor and City Engineer for the installation of services for Angela Court Subdivision (City file 48T-20101).

---

## **Recommended Option**

Option 2 is the recommended option.

That the City enter into a Pre-Servicing Agreement with New Era Homes Limited and Millford Development Limited in a form satisfactory to the City Solicitor and City Engineer for the installation of services for Angela Court Subdivision (City file 48T-20101).
