Background

The City has received a request for a Noise By-Law 2014-053 exemption from the Bay Block Party to permit the amplification of sound using an outdoor public announce system, bands electronic sound amplification equipment, and drums at Main Street East and Wyld Street, directing towards Ferguson St. The requested exemption date and times are as follows:

- Saturday August 24, 2024
 - 9:00am – 12:00pm (soundcheck)
 - 1:00pm – 10:00pm (concert)

The Bay Block Party is proposing local musical performances beginning at 1:00pm and ending by 10:00pm. Soundcheck is expected to occur between 9:00am and 12:00pm prior to the event.

The stage location is bound by commercial zones with some residential apartments. The sound could become a nuisance over the day to neighboring residents. The proponent must notify residents and businesses within a one block radius of the stage.

The event is well attended by the community. The City has not received any noise complaints regarding this event in the past.

Financial/Legal Implications

The sound could become a nuisance to residents in the nearby residential zone. The proponent must notify residents and businesses within a one block radius of the event.

Options Analysis

Option 1: Council approves the application as requested. Council authorizes an exemption to Noise By-Law 2014-053 as received, pursuant to the terms and conditions outlined by Section 5 of the by-law.

Option 2: Council can deny the application as requested. The Bay Block Party event would have to proceed without the amplification of sound if the organizers chose to proceed with the event.
